Author index to volume 120

Ansorge, U., G. Horstmann and E. Carbone, Top-down contingent capture by color: evidence from RT distribution analyses in a manual choice reaction task 243

Bachmann, T. and P. Sikka, Perception of successive targets presented in invariant-item streams 19
Bertamini, M. and T. Farrant, Detection of change in shape and its relation to part structure 35

Carbone, E., see Ansorge, U. 243
Csathó, Á., see van der Vloed, G. 74

Dent, K. and M.M. Smyth, Verbal coding and the storage of form-position associations in visual–spatial short-term memory 113

Farrant, T., see Bertamini, M. 35

Garry, M., see Sharman, S.J. 227
González, A., E.G. Milán, A. Pereda and M. Hochel, The response-cued completion hypothesis and the nature of residual cost in regular switch 327

Hochel, M., see González, A. 327
Horstmann, G., see Ansorge, U. 243
Hunt, M., see Sharman, S.J. 227

Jacoby, L.L., see Jones, T.C. 55
Jones, T.C. and L.L. Jacoby, Conjunction errors in recognition memory: Modality-free errors for older adults but not for young adults 55

Lee, T.D., see Patterson, J.T. 267
Liefooghe, B., see Verbruggen, F. 307

Milán, E.G., see González, A. 327

Elsevier B.V.
doi:10.1016/S0001-6918(05)00097-1

Notebaert, W., see Verbruggen, F. 307

Osman, M. and D.R. Shanks, Individual differences in causal learning and decision making 93

Patterson, J.T. and T.D. Lee, Learning a new human–computer alphabet: The role of similarity and practice 267
Pereda, A., see González, A. 327

Rammsayer, T. and R. Ulrich, No evidence for qualitative differences in the processing of short and long temporal intervals 141
Rammsayer, T.H., see Stahl, J. 1
Rodway, P., The modality shift effect and the effectiveness of warning signals in different modalities 199

Savelsbergh, G.J.P., see van Doorn, H. 288
Scholz, J.P., see Tseng, Y.-w. 172
Shanks, D.R., see Osman, M. 93
Sharman, S.J., M. Garry and M. Hunt, Using source cues and familiarity cues to resist imagination inflation 227
Sikka, P., see Bachmann, T. 19
Smyth, M.M., see Dent, K. 113
Stahl, J. and T.H. Rammsayer, Accessory stimulation in the time course of visuomotor information processing: Stimulus intensity effects on reaction time and response force 1

Tseng, Y.-w. and J.P. Scholz, Unilateral vs. Bilateral coordination of circle-drawing tasks 172

Ulrich, R., see Rammsayer, T. 141

van der Helm, P.A., see van der Vloed, G. 74
van der Kamp, J., see van Doorn, H. 288
van der Vloed, G., Á. Csathó and P.A. van der Helm, Symmetry and repetition in perspective 74
van Doorn, H., J. van der Kamp and G.J.P. Savelsbergh, Catching and matching bars with different orientations 288
Vandierendonck, A., see Verbruggen, F. 307
Verbruggen, F., B. Liefooghe, W. Notebaert and A. Vandierendonck, Effects of stimulus–stimulus compatibility and stimulus–response compatibility on response inhibition 307
